(c) The Ninth Five Year Plan has not been finalised.

Decline in ground water level in Gujarat

*533. SHRI AHMED PATEL: Will the PRIME MINISTER be pleased to state:

(a) whether it is a fact that level of ground water in most of Gujarat has gone down considerably and situation has become alarming;

(b) if so, the details thereof;

(c) whether Government have conducted any study in this regard;

(d) if so, the findings thereof; and

(e) the steps Government have taken or propose to take to check the declining trend in ground water levels in Gujarat?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI SOMPAL): (a) and (b) Long term observations made by the Central Ground Water Board have shown a decline of upto 10.6 metres in shallow ground water and upto 50.37 metres in the level of deeper ground water in some parts of the State of Gujarat. Due to steep fall in the level of ground water from 12 to 50 metres, the situation in some parts of Gujarat including the districts of Mehsana, Gandhinagar and Ahmedabad has become alarming.

(c) Yes, Sir.

(d) The details of fall in the level of shallow and deeper ground water in various parts of the State are as indicated in the following table:—
